Question: 1

DRAG DROP

Drag and drop the Cisco WSA methods from the left onto the correct deployment modes on the right.

WPAD	Transparent Mode
WCCP	
PAC	Explicit Mode
PBR	

Answer:

WPAD	Transparent Mode
WCCP	
PAC	Explicit Mode
PBR	

Explanation:

You could use an explicit setting (browser config/PAC/WPAD) or transparent (WCCP/PBR) to point to the first proxy and then the first proxy will route based on category to one of the two upstream proxies based on your policy configuration.
