HOTSPOT

You need to implement a security policy solution to authorize the applications. The solution must meet the security requirements.

<https://www.examsnest.com>

Which service should you use to enforce the security policy, and what should you use to manage the policy settings? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Enforce the security policy:

|                                        |
|----------------------------------------|
| Microsoft Defender Application Control |
| Microsoft Defender Application Guard   |
| Microsoft Defender Credential Guard    |
| Microsoft Defender for Endpoint        |

Manage the policy settings:

|                                            |
|--------------------------------------------|
| Configuration profiles in Microsoft Intune |
| Compliance policies in Microsoft Intune    |
| Group Policy Objects (GPOs)                |

---

**Answer:**
