Question: 1

What are some activities SAP recommends customers consider when integrating agent AI systems into their operations? Note: There are 3 correct answers to this question.

- A. Provide internal data for training
- B. Set up an AI agent governance board to prevent ethical issues
- C. Measure and evaluate AI agent performance
- D. Maintain expert oversight over AI agent decisions
- E. Implement change management to align teams with AI agent functions

Answer: ACD

Question: 2

What are some value propositions of SAP Document AI? Note: There are 2 correct answers to this question.

- A. Scalability and compliance
- B. Secure and compliant frameworks
- C. Enterprise-grade orchestration
- D. Preconfigured content

Answer: AD

Question: 3

Match the component on the left to the definition in the dropdown list.

- A. Joule skills → AI applications that execute single, predefined tasks independently
- B. Joule Studio → Low-code extensibility environment within SAP Build
- C. Joule → User interface for AI at SAP
- D. Joule agents → AI applications that assist business users with decision support and task automation

Answer: ABCD

Question: 4

DRAG DROP

Drag and drop the elements at the bottom to the architecture layers of the SAP LeanIX meta model.

Answer:

Explanation:

Question: 5

(Which URL should you use to find reliable information about existing and planned features of Joule quickly?)

- A. <https://developers.sap.com/board?range=FIRST-LAST&q=Joule>
- B. <https://learning.sap.com/learning-journeys/Joule>
- C. <https://roadmaps.sap.com/board?range=FIRST-LAST&q=Joule>
- D. <https://community.sap.com/topics/joule>

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract: The correct URL to quickly find reliable information about existing and planned features of Joule is the SAP Road Map Explorer, as it is the official interactive tool designed for viewing current and future product features and innovations. This aligns with SAP's official resources for product roadmaps, which detail both existing capabilities and planned enhancements for tools like Joule, SAP's generative AI copilot.

Exact extracts supporting this:

From SAP Road Map Explorer description: "The SAP Road Map Explorer is an interactive tool that
<https://www.examsnest.com>

supports a customer's journey to SAP's future product portfolio and the Intelligent Enterprise."pages.community.sap.com

From a specific Joule roadmap asset: "Preview the road map for the Joule copilot and start planning how to leverage its upcoming enhancements to grow efficiency and engagement across your business."sap.com

The URL in option C directly searches the roadmap board for Joule across all time ranges (FIRST-LAST), providing comprehensive details on features.

Other options are incorrect because:

Option A (developers.sap.com) is for developer resources, tutorials, and boards, not specifically for product roadmaps or planned features.

Option B (learning.sap.com) focuses on learning journeys and educational content, such as courses on using Joule, but not on feature roadmaps.

Option D (community.sap.com) is a discussion forum for user topics and experiences, which may not provide official, reliable roadmap information.
